Mix and match from all of the programs offered to create your own unique experience.

- **One-Day and Overnight Trips** - Bring your girls for the day, or stay 1 - 2 nights in our comfortable cabins with full-service dining facilities.
- **Food** - Bring your own lunches, cook your own food over the campfire, or let our food-service staff provide the meals for you.
- **Cost** - Total cost is dependent on the number of programs you would like to do, which programs you choose, length of stay, and your food service options. The cost includes your fun patches.
- We suggest a whole day event that would include a horseback riding program and 2-3 environmental education and cooking activities. The cost for this could be as low as \$41 and the girls would receive at least 4 fun patches!
