## Building Trust!

Trust is something that is beneficial to any team or group of people. Whether they are members of the same youth group, work in the same office, or simply have a similar interest, trust goes a long way! Lutherlyn's Mobile workshops bring a plethora of trust building activities to your doorstep to help your group become more trusting of each other and better suited to work together effectively!

## Strengthening

A strong mind is vital for continuous, life long growth. Activities that are able to stimulate minds of all ages allow groups to work through complex problems to a solution. They also allow participants to witness qualities or skills within themselves and their peers that they may have not had a chance to see before. Through these experiences, people of all ages are able to then learn more about themselves as a person and as a leader!

## Having Fun!

Have you ever had to use cookies to cross a river of molten peanut butter, or been turned into a toilet during a game of tag? Learning about oneself and the people that you interact with is important, but so is having fun! While the initiatives presented in Lutherlyn's Mobile workshops are challenging and informative, they are also tons of fun!
