## Lutherlyn Prevention and Mitigation Plan for Summer Camp 2022

We hold safety as a high priority; the following plan is specific to Summer Camp 2022 and is **subject to change**. Adjustments will be made if changes are recommended by the American Camp Association, the Centers for Disease Control, the PA Department of Health, or other officials. The parent/guardian of all summer campers, family campers, and summer staff must sign this plan prior to arrival at camp.

### **Pre-Arrival:**

- Campers and their families are not to engage in high-risk situations for COVID-19 transmission for 1 week prior to arrival at Lutherlyn. This includes international travel.
- The Diligent Urgent Care intake form and waiver must be completed giving authorization for Diligent Urgent Care to administer a rapid (antigen) test upon arrival at camp.
- Those **ages 18 and older** (staff, volunteers, and adult Family Campers) are required to have the recommended COVID-19 Vaccine doses (including booster) to attend Lutherlyn's residential camp programs. Those with a medical exemption must provide documentation from an MD.
- If a camper has been exposed to COVID-19 in the 7 days prior to arrival at camp or is displaying COVID-19 symptoms (fever, dry cough, shortness of breath, chills, fatigue, recent loss of taste and/or smell), please stay at home. Lutherlyn will attempt to reschedule the camper or a refund will be issued.
- If a camper tests positive for COVID-19 within 12 days of arrival, they will be re-scheduled or a refund will be issued.

### **At Check-In:**

- We request that one parent/guardian come to drop-off and no siblings who are not staying at camp. We recognize that this is not always possible.
- All residential campers, staff, and volunteers (regardless of vaccination status or if they previously had COVID-19) will take a rapid (antigen) COVID-19 test upon arrival at camp on Sunday. The test will go through each camper's health insurance and will have no out-of-pocket expense to the family. The test will be administered by Diligent Urgent Care. This is a shallow nasal swab and is NOT the kind of test that goes deep in the nose. Campers/staff/volunteers who do not have health insurance will be required to bring a rapid test with them or notify Lutherlyn in advance that one is needed.
- The following screening questions will be asked. If the answer to any of these questions is "yes", that camper will be rescheduled for a later week or refunded their camp fee.
  - Has your camper experienced any symptoms of COVID-19 in the past 7 days: fever of 100°F or greater, cough, shortness of breath, fatigue, chills, muscle aches, new loss of taste or smell, sore throat, nausea, vomiting?
  - Has your camper been in contact with another person who has been ill with respiratory complaints or fever, who has tested positive for COVID-19, or who is awaiting COVID-19 test results in the past 7 days?
  - Has your camper been diagnosed with COVID-19 in the past 12 days?
  - Has your camper traveled outside of the country in the past 7 days?
- Arrival times will be pre-assigned (sometime between 2:00pm and 4:00pm).
- Only campers and the counselor will enter the cabin that they are living in for the week. Staff will help campers move into cabins and make their beds. Parent(s)/guardian(s) are encouraged to briefly visit with their camper's counselor outside before saying goodbye.

### **During the Week:**

- Masks are optional. Those who choose to mask will be fully supported in their decision.
- Families should contact Lutherlyn immediately if they learn that their camper may have been in contact with someone who has now tested positive for COVID-19.
- Hand washing/sanitizing will be a regular part of the daily routine.

- Anyone who develops symptoms will immediately enter on-site quarantine, and the camper's family will be contacted to pick up the camper. If a camper tests positive for COVID-19, we will notify the other families of the symptomatic camper's cabin group.
- Campers will not be allowed to leave their session and return to camp during the week (sports, appointments, etc.).
- There will be daily cleaning/disinfection of equipment and public areas.
- FAMILY CAMP: The office must be notified at Sunday check-in of any visitors/day guests coming during the week. Each visitor must bring a rapid COVID test with them and take it upon arrival at camp.

**Departure:**

- Closing worship will be for campers only and will be on Friday afternoon.
- Pick-up is on Friday from 6-7:00pm. Times will be pre-assigned in small groups.
- Staff will bring camper belongings outside of the cabin to the parent/guardian (no parents in cabins).
- If a camper tests positive for COVID-19 within 7 days after departing camp, please notify Lutherlyn so the cabin group and counselor can be notified.

The parent/guardian of each camper must e-sign the COVID-19 waiver and this plan prior to attending camp.

**As we continue to work toward offering a safe and fun camp experience for all, this plan may be updated as we receive additional information from the CDC, the ACA, and the PA Dept. of Health.** Please direct any questions specific to the COVID-19 plan to our Executive Director, Deb Roberts at [deb@lutherlyn.com](mailto:deb@lutherlyn.com) or 724-865-2161.

Thank you for your understanding and cooperation during this time. Our top priority is the safety and health of our campers and staff. We will provide a FUN and FAITH-FILLED camp experience for our campers while diligently following this plan.
