Lutherlyn Prevention and Mitigation Plan for Summer Camp 2021

We hold safety as a high priority; the following plan is specific to Summer Camp 2021 and is subject to change. Adjustments will be made if changes are recommended by the American Camp Association, the Centers for Disease Control, the PA Department of Health, or other officials. The parent/guardian of all summer campers, family campers, and summer staff must sign this plan prior to arrival at camp.

Pre-Arrival:

- All campers are strongly advised to isolate for two weeks prior to attending camp. This requires minimal contact with the public, maintaining six feet of distance from anyone not living in your household, stringent mask-wearing indoors, and hand washing. This does not mean that campers must stay at home for 2 weeks; it means that campers and their families are not to engage in high-risk situations for COVID-19 transmission.
- All campers, staff, and volunteers who are not vaccinated for COVID-19 will be tested with a molecular (PCR) test the week before arrival at camp. A telemedicine visit with Diligent Urgent Care must occur at least 2 weeks prior to arrival. The test kit will arrive in the mail at the camper's home, will be administered at home, and should be returned to the lab in the provided return envelope the Monday prior to arrival at camp. The test results will be communicated to the family and to Lutherlyn. Campers with a negative test result will be able to check-in at Lutherlyn on Sunday. Please notify Lutherlyn if the kit does not arrive in time; we will work with you to resolve the problem.
- The updated guidance from the CDC allows for those who are fully vaccinated (campers and staff) to present their vaccination card in place of COVID testing (the PCR and rapid tests being done through Diligent Urgent Care). This means that a camper or staff member that is fully vaccinated (2 weeks have past since their second dose of the Pfizer or Moderna vaccine or 2 weeks have past since the single-dose Johnson & Johnson vaccine) does not have to do the COVID testing UNLESS they have been exposed to someone that tested positive within 2 weeks before coming to camp or they have COVID-19 symptoms. If the camper has been exposed or has symptoms, the camper will still need to do the rapid test upon arrival. Parents/guardians should e-mail a photo of the camper's vaccine card to email@lutherlyn.com by the Monday before arriving at camp to be removed from the list of those getting the rapid test at Sunday arrival.
- If anyone in a household has been exposed to COVID-19 in the two weeks prior to arrival at camp or is displaying COVID-19 symptoms (fever, dry cough, shortness of breath, chills, fatigues, recent loss of taste and/or smell), please stay at home. Lutherlyn will attempt to reschedule the camper or a refund will be issued.

At Check-In:

- Please practice social distancing (at least 6 feet) from others during check-in. Check-in will be outside. If someone goes inside during check-in (bathrooms), a mask must be worn.
- We request that only ONE parent/guardian come to drop-off and no siblings that are not staying at camp. We recognize that this is not always possible.
- A rapid COVID-19 test (antigen) will be administered at the first check-in station for all campers who are not vaccinated. The test results will take 15-20 minutes and will be shared with the camper/parent and Lutherlyn. Those with a negative test result will receive their cabin assignment for the week and move into their cabin. Campers and staff who are fully vaccinated only need the rapid test if they have been exposed to someone who tested positive in the past 2 weeks or if they have COVID-19 symptoms.
- The following screening questions will be asked:
 - Has your camper experienced any symptoms of COVID-19 in the past two weeks: fever of 100.4 or greater, cough, shortness of breath, fatigue, chills, muscle aches, new loss of taste or smell, sore throat, nausea, vomiting.
 - Has your camper been in contact with another person who has been ill with respiratory complaints or fever, who has tested positive for COVID-19, or who is awaiting COVID-19 test results.
 - Has your camper been diagnosed with COVID-19 in the past 14 days.

- Arrival times will be pre-assigned (sometime between 1:30pm and 4:00pm) to reduce the number of people checking-in at the same time.
- Due to the testing administered by Diligent Urgent Care upon arrival, campers will not be able to arrive late on Sunday. Everyone must arrive during the afternoon check-in time.
- Only campers and the counselor will enter the cabin that they are living in for the week. Staff will help campers move into cabins and make their beds. Parent/Guardian are encouraged to briefly visit with your camper's counselor outside before saying goodbye.

During the Week:

- Lutherlyn will operate at half-capacity for the summer.
- Families should contact Lutherlyn immediately if they learn that their camper may have been in contact with someone who has now tested positive for COVID-19.
- There will be daily symptom screening for all campers and staff.
- The majority of camp activities will be done outdoors. Cabin groups will eat meals outside, when possible.
- Hand washing/sanitizing will be a regular part of the daily routine.
- Anyone who develops symptoms will immediately enter on-site quarantine, and the camper's family will be contacted. There will be rapid (antigen) COVID testing available if a camper or staff member has symptoms of COVID-19 during the week of camp (telemedicine visit). If a camper tests positive, we will notify the other families of the symptomatic camper's cabin group.
- A cabin group will live together for the week. A cabin group does not need to wear masks when they are together with only their cabin group (indoor or outdoor).
- A "pod" is two cabin groups (2 counselors with 12 campers) that can do outdoor activities together with social distancing throughout the week. Pods will be campers from the same program/age group, will be assigned prior to the start of camp, and will not change throughout the week. A pod does not need to wear masks when they are outdoors and can practice social distancing. A pod will wear masks when they are indoors together or when social distancing is not possible.
- Campers will not be allowed to leave their session and return to camp during the week (for sports, appointments, lessons, etc.).
- Masks:
 - Campers are required to bring at least 10 masks with them to camp (that allows for 2 masks each day). Lutherlyn will have disposable masks available when needed.
 - Masks will be required for all campers and staff indoors with anyone outside of their cabin group and outdoors when not able to social distance.
 - Counselors will monitor to make sure that campers are changing their masks regularly.
 - Masks can be cloth or disposable. We discourage disposable due to the amount of waste.
 - Cloth masks must be at least 2 layers and designed as a face mask (no gaiters, bandanas, or scarves).
 - Masks cannot have valves or vents. No N95 masks without documentation of fit-testing. No K95 masks.
 - Face shields are not permitted in lieu of a mask.
- Social distancing (6 feet or greater) will be maintained in large group settings through assigned rows or seating at worship/campfire and assigned tables in the dining hall.
- Outdoor singing will not require masks as long as there is at least 6 feet of distance between cabin groups. Indoor singing will require masks and at least 6 feet of distance between cabins groups.
- There will be daily cleaning/disinfection of equipment and public areas.
- All staff are encouraged to be fully vaccinated for COVID-19 prior to the start of camp. All counselors will be fully vaccinated prior to the start of camp. The summer staff will have specific guidelines for how they may interact with each other and they will have limited contact with people outside of the Lutherlyn community during their employment. The summer staff will have extensive training in these policies/procedures prior to the arrival of campers.

Departure:

- Closing worship will be for campers only and will be on Thursday afternoon.
- Pick-up is on Thursday from 6-7:30pm. Times will be pre-assigned in small groups.
- Staff will bring camper belongings outside of the cabin to the parent/guardian (no parents in cabins).
- We request that only ONE parent/guardian come to pick-up.
- If a camper tests positive for COVID-19 within ten days after departing camp, please notify Lutherlyn so the cabin group and counselor can be notified.

In addition to the above practices, these notes apply specifically to Family Camp:

- Visitors and day guests will not be permitted for Family Camp. Only full-week, registered family members.

- Family campers age 5 and older are required to be tested for COVID (PCR prior to camp and antigen upon arrival). Campers and staff who are fully vaccinated only need the rapid test if they have been exposed to someone who tested positive in the past 2 weeks or if they have COVID-19 symptoms. Lutherlyn must receive a photo/copy of the vaccine card for those who are not testing.
- Masks are required for everyone age 2 and older indoors.
- The summer staff will facilitate camp activities at a distance of 6 feet.
- Each family will have an assigned table in the dining hall but families are encouraged to eat outside as much as possible.

A NOTE ABOUT THE CDC MASK GUIDANCE:

While we recognize that the CDC has changed the masking guidance for those who are vaccinated, Lutherlyn will maintain our indoor masking policy anytime that children are present on camp. Lutherlyn has always practiced the “Ministry of Role Modeling” so when there are children present who are not yet able to be vaccinated (and therefore required to wear masks), everyone will follow the masking policy to show our kids that they matter and that we care about them.

The parent/guardian of each camper must e-sign the COVID-19 waiver and this plan prior to attending camp.

As we continue to work toward offering a safe and fun camp experience for all, this plan may be updated as we receive additional information from the CDC, the ACA, and the PA Dept. of Health. Please direct any questions specific to the Covid-19 plan to our Executive Director, Deb Roberts at deb@lutherlyn.com or 724-865-2161.

Thank you for your understanding and cooperation during this time. Our top priority is the safety and health of our campers and staff. We will provide a FUN and FAITH-FILLED camp experience for our campers while diligently following this plan.
